What is an "aggregated collection?" Sometimes libraries are able to make a single purchase of a single license for use of a collection of digital materials. This could be a collection of e-books, for instance. If you are unsure whether you're requesting reconsideration for a title that is part of an aggregated collection, you may ask James Jackson Sanborn at the address on the bottom of this form. If you complete the form and then learn that the title you're requesting reconsideration of is part of an aggregated collection, MIN will inform you and give you an opportunity to edit your submission.
